## Minivend 4

### Minivend 4

Minivend 4 offers the latest design of coin unit for operating a photocopier. Easy to fit, easy to use, flexible and affordable too. This freestanding coin unit fits to virtually all makes and models of photocopier and selected printers. It can operate as a standalone or in tandem with a card system.

It gives great flexibility for users, accepting up to six coin values and offering eight price lines. A high quality scrolling LCD display makes usage both quick and easy. This unit is highly secure, offering a full audit trail of all transactions.

Minivend 4 can be used in all major European countries and is Euro compatible. This is a high quality affordable system for any library, educational establishment or organisation.

### Key Benefits

#### Easy to operate

Paying for and making photocopies with Minivend 4 couldn't be easier. The scrolling LCD display allows the customer to easily read a set of comprehensive user prompts. A series of menu options allows the operator to change the price or audit the credit taken. It's low height allows ease of use for the disabled and wheelchair users.

#### Suitable for all European countries

Minivend 4 can be used in all major European countries and can be programmed in six different languages. This UK machine can be easily converted to Euros by the customer; no engineer is necessary, no extra cost involved.

#### High security

A re-settable record of all transactions is available, helping to prevent fraud.

#### Low maintenance

This floor standing unit does not need fitting to a wall or photocopier. It's large capacity coin box means there is ample daily capacity for the busiest environments.
